U

Objective:

A Spiring Textile Technologist with an interest in modern textile technologies and sustainable processing methods. A quick learner and team player, eager to support innovation and environmentally responsible textile solutions.

Education:

B.Tech Textile Technology 2023-2027

Kumaraguru College of Technology - CGPA 8.4

Maths Computer science(12th)2022-2023

ZKM higher secondary school-Bodinayakanur-625513

Percentage-76.6

Soft Skills:

Active listening
Time Management
Effective Communication
Leadership
Team Collaboration

Technical Skills:

C
C++
HTML
Python
AutoCAD

Project :

1. Non-Destructive Fabric Fingerprinting System

Developed a non-invasive, image-processing-based method to analyze fabric structure, texture, and defects, enabling reliable measurements for AI-driven textile testing.

2. IoT-Based Power Outage Detection and Monitoring System

Developed an Arduino-based IoT power outage detection system using LoRa and Wi-Fi to monitor utility pole failures in real time, enabling faster fault reporting and reduced downtime.

Certification:

Mahatma Ghandi Merit Schlorship Award

Internship / Research:

Bannari Amman Spinning Mill Limited-Weaving Division

Personel Interest

Designing
Technical Textiles
Weaving
